PROFILE

As a filmmaker, my goal is to create and capture unique, human stories. Then to craft films that inspire, absorb and entertain audiences.

I'm a cinematographer, editor, and filmmaker who's been pursuing a lifelong journey in video production. I've participated in many fields of production; having directed commercials, short films, music videos, live events, and travelogues.

FOR FILM PORTFOLIO & GRAPHIC DESIGN WORK

WORK EXPERIENCE

DIGITAL MEDIA PRODUCER | ESQUE PRODUCTIONS

August 2018 - February 2019

Developed a variety of creative content for ESQUE Productions and implemented a new brand aesthetic. Utilizing my skills as both a videographer and graphic designer, I crafted videos, photos, logos and posters that were implemented through social media platforms. Communicated with client to help bring his vision to life.

EVENT PRODUCTION TECHNICIAN | UCF STUDENT UNION

April 2016 - August 2018

Setup and managed the audio/visual equipment for all event spaces in the Student Union. As a leader, I helped supervise and teach our Event Associates about mixer boards, projectors, microphones, sound systems, and proper cable management. Working with clients, I assisted with any tech-related issues efficiently and ensured the event exceeded their expectations.

FILM PRODUCTION VIDEOGRAPHER | WUCF TV

May 2017 - August 2017

As lead videographer I worked at the local PBS station on the television show "Metro Center Outlook". Developed connections with the shows guest to setup on-location shoots, oversaw my small team in the field, and shot a majority of the B-Roll. In addition, I worked in the studio as the assistant director, sound mixer, floor director, and camera operator during live donation drives done by the station.

INFORMATION TECHNOLOGY SPECIALIST | ESCU NETWORK

September 2015 - January 2016

Served as technical support for a variety of small businesses; troubleshooting and upgrading Windows computers. Assisted the manager with projects such as hard drive recovery, desktop repairs, and server installations. Gained solid fundamentals to serve the clients needs, ensuring they had an effective IT architecture.
